ROLLER INCURL OIL APPLICATOR

No. 218.1

### ROLLER INCURL LUBE ASSEMBLY UPGRADE PMC-1001 & PMC-1002

Paper Machinery Corporation is pleased to offer a new-and-improved Roller Incurl Oil Applicator for the PMC-1001 and PMC-1002 model machines. The Roller Incurl Oil Applicator can be purchased from PMC's customer service department under Assembly #824-278.

A wider pot design accommodates a larger piece of Foam. This foam is highly resistant to wear and is more absorbent, which allows the Foam to stay wet much longer. The larger width of the foam provides an improved uniform application of the oil to the cup bottom.

824-278
