BOTTOM FINISH/LID GROOVE STATION

No. 235.1

### NEW CAM PMC-1002

Paper Machinery Corporation has redesigned and successfully completed field testing of a new Bottom Finish/Lid Groove Station Cam with increased life of cam and followers.

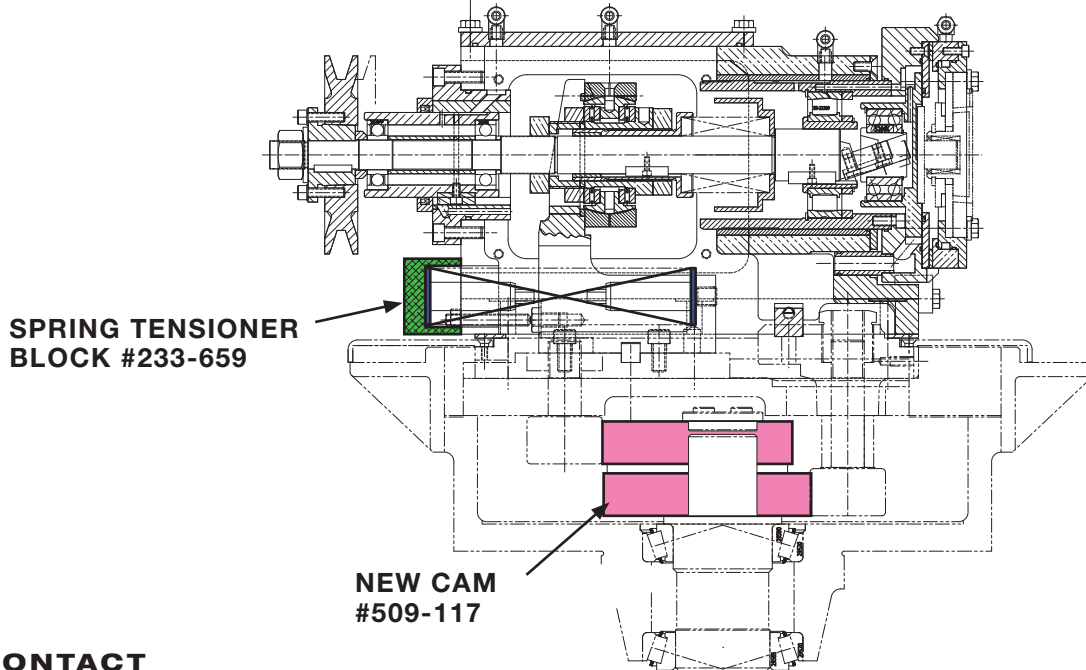

This Cam is being offered as a direct replacement for the now obsolete Cam #403-760. For first time replacement, a new Spring Tensioner Block is required.

To purchase this assembly, use part #827-595 which includes new Cam #509-117 and Tensioner Block #233-659.

Tensioner Block is required to decrease existing spring pressures and does not need replacement thereafter.

PMC recommends changing Springs and Cam Followers. (Ref: SP-12962 [x2], BR-15055 [x1], BR-15200 [x1])

Please Contact PMC's Service Department if additional information is required.

### CONTACT

Parts orders and customer communication can be made using telephone, FAX, or e-mail. See below. Contact can also be made using the *main* telephone switchboard at 414-354-8050 or FAX number 414-354-8614. Sending a FAX *directly* to the Service Department, at 414-354-1710, will convey a faster response. If using e-mail and no response is made within 3 working days, please contact via phone or FAX.
