NEXEN BRAKE

No. 254.2

NEW BRAKE SYSTEM PMC-1002 & PMC-1003

Paper Machinery Corporation has developed a new brake system for the 1003 machine. This system can be used as a replacement for any PMC-1002 or PMC-1003 with the Rexroth main drive motor. This system replaces the current Nexen brake installed on these machines.

Paper Machinery Corporation has developed a retrofit to enable the customer to install this system as a replacement for the Nexen brake. Retrofit #6008586 is for PMC-1002 machines. Retrofit #6008586 is for PMC-1003 machines. **See Service Instruction 119 for installation.**

This retrofit can be used on some of the PMC-1002 machines with serial numbers SO125783 through SO139555 and all PMC-1002 machines with SO140400 through SO156853. It can also be used on any model of PMC-1003.

Please contact PMC Customer Service for compatibility and pricing.
