## **PAPER MACHINERY CORPORATION TO EXHIBIT AT ProPak Asia 2019**

MILWAUKEE, WI – April 1, 2019 – Paper Machinery Corporation (PMC) will exhibit at ProPak Asia 2019 from June 12 -15 in Bangkok, Thailand — booth AX25 in Hall 100. The show will be held at Bangkok International Trade & Exhibition Centre (BITEC).

Paper Machinery Corporation designs and manufactures high-speed cup and container forming machines. Advanced engineering enables PMC machines to produce many of the world's most innovative cold drink cups, hot beverage cups and food packaging.

PMC's booth at ProPak Asia will display many of these innovations including branded paper and plastic cups, double and triple-wall insulated cups, non-round containers, and award winning packages for a wide range of markets. PMC's sales and marketing team will be available to provide information regarding the newest features and answer questions about their line of advanced forming machines.

### **About Paper Machinery Corporation**

Paper Machinery Corporation is the world's leading source of forming machines for paperboard cups, containers, and custom packages. PMC manufactures dependable, high quality forming machines for converters and end users and has more than 3,000 installations worldwide. PMC's corporate headquarters and manufacturing facility is located in Milwaukee, Wisconsin, U.S.A. This facility houses engineering, service, machining centers, as well as machine assembly. PMC is an employee owned company. For more information, visit [www.papermc.com](http://www.papermc.com) or call Donna Lehto at 414-362-8231.
