PAPER MACHINERY CORPORATION WILL EXHIBIT AT PACK EXPO LAS VEGAS 2019

MILWAUKEE, WI – June 10, 2019 – Paper Machinery Corporation will exhibit at PACK EXPO Las Vegas, at the Las Vegas Convention Center, September 23 – 25, booth LS 6008.

PMC's booth will feature samples of innovative non-round containers, hot and cold drink cups and award winning packages for a wide range of markets. Brochures, specification sheets and videos will also be available.

Paper Machinery Corporation (PMC) leads the industry with innovative, custom engineered, cup and container forming machines. PMC produces efficient, state-of-the-art machinery including their PMC 2000S and PMC 2500S servo drive models and high speed PMC 1003 cup forming machine.

“Our servo drive forming machines allow tool changeovers in less than a single shift, which is ideal for a flexible production environment.” stated Mike Hansen, PMC's Vice President of Packaging.

PMC's overwrapping machines are widely used in packaging and hot drink applications. PMC offers double wall, triple wall and specialty wrapping machines with customer specified sealing methods.

About Paper Machinery Corporation

Paper Machinery Corporation is the world's leading source of forming machines for paperboard cups, containers, and custom packages. PMC manufactures dependable, high quality forming machines for converters and end users and has more than 2,500 installations worldwide. PMC's corporate headquarters and manufacturing facility is located in Milwaukee, Wisconsin, U.S.A. This facility houses engineering, service, machining centers, as well as machine assembly. PMC is an employee owned company. For more information, visit www.papermc.com or call Donna Lehto at 414-362-8231.
