

Introducing the Sensia TeleHealth Program

The coronavirus outbreak has created a significant strain on employees, employers, and the healthcare system. To assist in providing access to a medical provider, your employer has partnered with **Sensia** to offer TeleHealth services to you during these difficult times.

Sensia is an independent healthcare company that provides comprehensive Primary Care, Wellness, and Occupational Health programs. All the **Sensia** medical personnel are certified and licensed to provide healthcare services in the state of Wisconsin.

The **Sensia TeleHealth Program** allows you to electronically schedule a telephonic appointment with a **Sensia** medical provider. The primary goal of the assessment is to determine the nature and extent of your condition, answer any questions, and offer appropriate recommendations as indicated.

In order to promote easy access, the Sensia TeleHealth Program will be limited to use only by employees who work for approved Sensia clients.

The **Sensia TeleHealth Program** hours of operation are from 8:00 AM to 5:00 PM Monday through Friday. You may electronically schedule an appointment by going to www.sensiawellness.com and selecting the TeleHealth scheduling option at the top of the Home page. You will be contacted at the date and time which you reserved. **The consultation will be paid for by your employer!**

Sensia TeleHealth Services

Available for Approved Sensia Clients

Hours 8:00 AM to 5:00 PM Monday through Friday, effective March 23, 2020.

[Schedule Call Now](#)

A telephonic assessment is naturally limited in that the **Sensia** medical providers will not be able to directly observe or examine you. The nature of your condition may not be able to be determined through a telephonic assessment only. The service provided is intended to supplement and not replace that of your Personal Medical Provider. Prescriptions for routine medication refills and narcotic medications will not be provided.

The **Sensia** medical providers reserve the right to determine the nature of the treatment and recommendations that are offered. **To your best health.**
